

| Dream[®]
| Premium quality

| INTRODUCTION

Dream is a premium variety of strawberry, tasty and aromatic with tender, juicy flesh. Firm, conical to biconical fruit with a slightly fragile skin. Early, with extended production kinetics and high yield. Its main strength is the production of uniform fruits of average size, bright red and very shiny. The plant is upright and airy and has good resistance to powdery mildew.

| VARIETY CHARACTERISTICS

Average production:

Warm table top: 610 g/plant

Cold table top: 450 g/plant

Soil: 565 g/plant

Small and semi erect behaviour plant

Adapted for hydroponic production

Brix:
8.6°

Average weight of the fruit:
22 g

Bright red colour

| SUGGESTED PLANTING

Fresh trayplant:

November / December

Start of harvest:

26-30 May

Peak harvest:

8-12 June

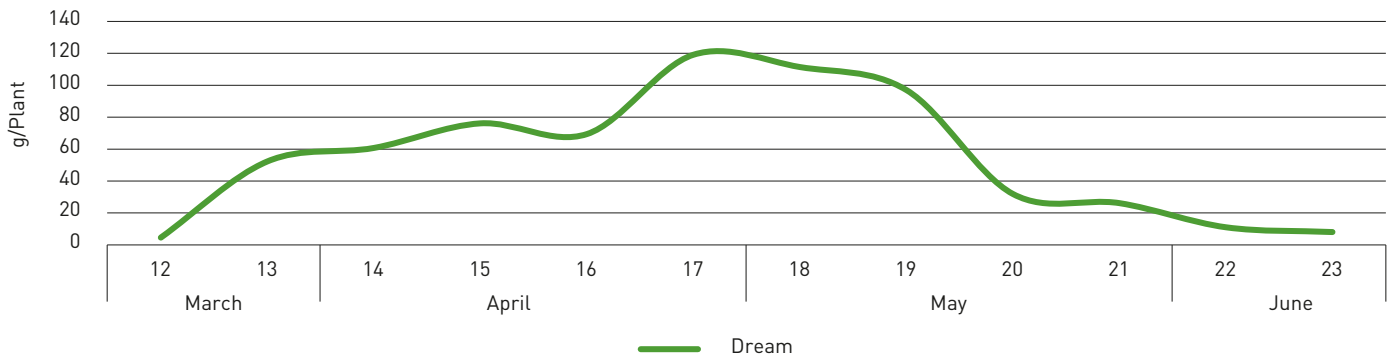

End of harvest:

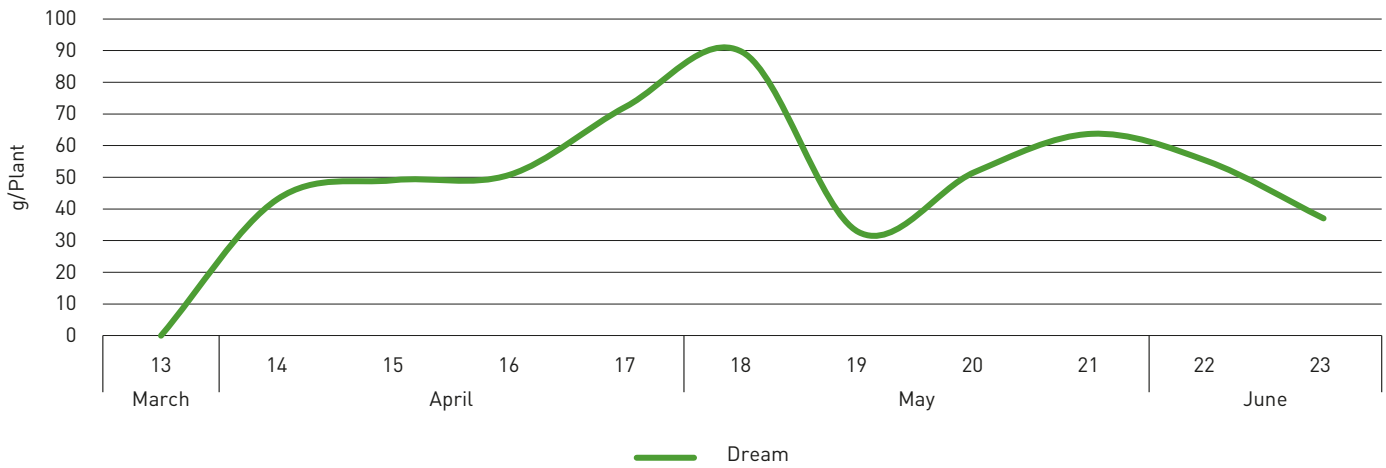

21-25 June

PRODUCTION CURVES

Warm table top

Cold table top
